

Download the monitor stand manual.

For **step 3**, you don't need to use the **M-C** and **M-A/M-B** items. Use the **8 black M4x5mm pan-head Phillips screws** from the bag with the WiFi antennas instead.

In **step 1b**, **part C** should be replaced with the **mounting bracket** that comes with the kit.

Use the **M5x8mm screws** from the small bag to install the mounting bracket on your machine.
